

Certificate of Analysis

Batch analysis summary for the referenced lot — HPLC purity, mass-spectrometry identity and LAL endotoxin screening.

| | | | |
|-------------------|-------------------------|------------------|--------------------------------|
| Product | Ipamorelin | Lot No. | IPAM-2604 |
| Form | Lyophilised powder | Test Date | 2026-04-14 |
| Appearance | White lyophilised solid | Storage | Below 25°C, protect from light |

Analytical Results

| Test Parameter | Method | Specification | Result |
|----------------|----------------------------|---------------|---------------------------------|
| Identity | Mass Spectrometry (ESI-MS) | Conforms | Conforms |
| Purity | RP-HPLC, 220 nm | ≥ 99.0% | 99.85% |
| Endotoxin | LAL (gel-clot) | < 0.5 EU/mg | Pass (LAL, not detected) |
| Appearance | Visual | White solid | Pass |

Pepreta provides this Certificate of Analysis for the referenced batch. Analysis comprises reversed-phase HPLC (purity), mass spectrometry (identity) and LAL endotoxin screening. Results apply to the referenced lot only and may vary between lots. This document is provided for informational purposes for qualified researchers and institutions.

For laboratory and research use only — not for human or animal consumption. This product is not a drug, food, cosmetic or supplement.
